### **HOT TOPIC IN EDUCATION**

In President Obama's State of the Union address, he called on Congress to expand access to high-quality preschool to every child in America. As part of that effort, a series of new investments will establish a continuum of high-quality early learning for a child – beginning at birth and continuing to age 5.

**The Preschool for All initiative** will improve quality and expand access to preschool, through a partnership with all 50 states, to provide all low- and moderate-income four-year-olds with high-quality preschool, while encouraging states to serve additional four-year-olds from middle-class families. The initiative also promotes access to full-day kindergarten and high-quality early education programs for children under age four.

Check out some of our related Early Childhood materials:

**Arizona Department of Education:** Arizona Early Learning Standards, 3<sup>rd</sup> Edition
